

I think people should have the right to listen to whatever they want and how they get that information is up to them. I think satellite radio is the best investment I made. I don't mind paying for radio stations where I can hear the music I want to hear. Also I don't believe its right that FM radio stations air commercials bashing satellite radio, they just feel threatened. If anyone tries to take satellite raido away from us we will not go down without a fight. Where else can you listen to crystal clear radio through out the whole country and not get bombarded with commercials selling junk.
AND LEAVE HOWARD STERN ALONE!!!!!!!!!!!!!!
